PROFILE

Paul Curtis is a Senior Level Directional Drilling Supervisor with over 15 year experience. He also runs his own consulting firm, Finn Ryder Directional Consulting Inc. His years of innovative directional drilling services and solutions for clients span five continents and eleven countries, in offshore, land, desert, jungle and Arctic environments. His years of international experience means he knows when to push ahead and when to pull back. Efficient. Agile. Accurate. His understanding of the entire drilling process ensures the client achieves superior results.

INTERNATIONAL PORTFOLIO

Finn Ryder Directional Consulting has fifteen years of innovative directional drilling services and solutions for clients across five continents, eleven countries, in offshore, land, desert, jungle and Arctic environments. It's the understanding of the entire drilling process that ensures the client achieves results.

North America

EASTERN CANADA 2006-2016

Tenure: 10 years. Mainly on Hibernia Platform. 90+ wells drilled to date.

- Led jobs drilling high difficulty Anti-collision ERD wells on a 64 slot platform.
- Provided clients with high quality, real time drilling services including:
 - Directional Drilling
 - Directional Surveys
 - Anti-collision Services

WESTERN CANADA 2008-2012

- Conducted Horizontal Well types on a multi-well pad in Northern BC in 2012
- Conducted a multi well project in Rocky Mountain House as second and lead Directional Driller in 2008

GULF OF MEXICO 2008

- Acted as a second Directional Driller on projects for Exxonmobil, Walter Oil and Gas.
- Project for Walter Oil and gas was in deep water as a real time seismic will drilling well.

U.S. LAND 2001-2007

Tenure 6 years.

- Led Schlumberger measurements while drilling
- Logging while drilling at well site in land operation
- Provided formation evaluation, drilling optimization and technical support of drilling.
- Quality control and interpretation of all wellsite logs and final deliverables. Conducted reduced crew operations as a Dual Service Specialist.
- Performing Directional Drilling as well as lead MWD at well site.
- Worked throughout several states performing reduced crew operations acting as a directional driller and MWD specialist.
- Mentored Junior MWD and breakout Directional Drillers.

Middle East

QATAR 2015

Lead hand on 2 horizontal wells for Qatar Petroleum. Utilizing SLB Vortex Xceed rotary assembly

South America

BOLIVIA 2014

Completed J-type well utilizing SLB Vortex Rotary assembly and consulted on proper bit selection for SLB assembly. Result: successful, higher ROP well sections

ARGENTINA 2014

- Completed successful Horizontal Well on a SLB IPM project for Shell.
- Worked with Shells Drilling optimization Team from Houston Texas and Shell Engineer on Site.
- Mentored Junior Directional driller and MWD engineers

MEXICO 2014

Brought in on request of district to complete and prepare for SLB Archer Sidetrack off a Whipstock. Consulted and prepared project.

VENEZUELA 2014

Completed two horizontal wells utilizing SLB mud motors and Powerdrive Assemblies as lead hand.

COLUMBIA 2012

Conducted directional drilling operations utilizing SLB mud motors and Powerdrive assemblies to complete wells for Total and National drilling companies

Europe

NORTH SEA 2010-2013

Several loan outs during that period working with Exxonmobil and Total in the Scottish and Dutch sectors. Multiple well types.

Asia

RUSSIA 2001-2002

- Lead MWD specialist on a series of wells.
- Lead MWD and junior Directional Driller for SLB IPM project

EDUCATION

INSTRUMENTATIONENGINEERING TECHNOLOGY

College of the North Atlantic, St. John's 1997-2000

TECHNICAL SCHOOLS WITH SCHLUMBERGER-DRILLING AND MEASUREMENTS

- SPEC 1 MWD School
- Power Drive School
- Drilling Optimization
- K&M Extended Reach Drilling School
- Directional Drilling 1 School
- Directional Drilling 2 School
- Directional Drilling Deep water
- SLB / K&M Stuck Pipe Prevention
- QHSE and General courses with Schlumberger
- Light Vehicle Training
- Radiation Training
- First Aid, Fire Fighting, H2S, Offshore Survival, BST
- Schlumberger Injury Prevention Program
- Permit to work training

CERTIFICATES

- Light Vehicle Training
- Radiation Training
- Fire Fighting
- Offshore Survival
- T-BOSIET OPTIO
- BASIC H2S - OPTIO
- Transport of Dangerous Goods
- Standard First Aid
- H2S Alive
- Lithium Battery
- Basic Offshore SurvivalSkills

SKILLS

- Directional drilling
- Well planning
- Project Management
- Consulting
- Mud motors
- Rotary steerable systems
- Vortex assemblies
- Whipstock and open hole side tracking
- Offshore and land
- Horizontal slant s curve j type wells
- Deep water and extended reach experience
- Platform and pad drilling in high anti collision settings
